<b>COURSE TITLE</b>	<b>ANATOMY III</b>
<b>CODE</b>	D06KTC201
<b>ECTS CREDITS</b>	4
<b>COURSE OBJECTIVE(S)</b>	Formation of basic knowledge about the human body, students' acquisition of fundamental notions regarding the anatomy of the nervous system as a theoretical and practical basis for the study of other fundamental disciplines. Mastering fundamental anatomical concepts regarding the nervous system, as well as practical information, will allow students to apply them in the various situations they will encounter in the professional field of physiotherapy they will choose.

<b>COURSE TITLE</b>	<b>MANAGEMENT AND ENTREPRENEURSHIP IN PHYSIOTHERAPY</b>
<b>CODE</b>	D06KTC205
<b>ECTS CREDITS</b>	2
<b>COURSE OBJECTIVE(S)</b>	Training the necessary skills to understand and apply management and entrepreneurship concepts in the fields of health, physiotherapy and special motor skills.
<b>LANGUAGE OF INSTRUCTION</b>	Romanian
<b>ASSESSMENT METHOD(S)</b>	Exam

<b>COURSE TITLE</b>	<b>PHYSIOLOGY II</b>
<b>CODE</b>	D06KTC206
<b>ECTS CREDITS</b>	3
<b>COURSE OBJECTIVE(S)</b>	The discipline contributes to the formation of general and specific competencies of the physiotherapy graduate, by completing the discipline the student is able to use terminology correctly and to establish connections, from a physiological point of view, with the functioning of various apparatuses and systems of the body with applicability in physiotherapy practice. Identification, quantification and evaluation of the various physiological parameters of the body.
